improvements that include such items as new fire apparatus, highway department trucks, building improvements, etc. Once the plan is approved at a Town Meeting, the Town can access various funds and grants available to it. The motion passed unanimously.

**Visitors:**

- **George Berka** phoned into this evening's meeting to propose a "spent nuclear fuel" facility in the Town of Washington. Mr. Berka stated the facility would be a private business, funds could be provided by the Department of Energy and could also be a source of revenue for the Town. He further explained that facilities such as this are considered safe and may be an answer to global warming. The Selectmen explained to Mr. Berka that much more information would be needed before discussing the subject any further.
- **Diane Dupuis** inquired about the Detour signs that have been placed on Rabbit Hill Road being taken down as the project has been postponed. Jim Brinton explained that he had contacted Dayton Construction, who installed the signs, and they have informed him they do not have the manpower to send someone to take them down. Diane feels the information on them is incorrect, are unsightly and were installed on private property. Jim further explained that they were placed in the Town's right-of-way, not private property, and they would be remaining until the project is completed.
- **Chris Charles** inquired about donations that are made to the Town and what the protocol is for making the names of donors known, especially for those who request their donation be anonymous. Jim Brinton offered to consult with the Town Attorney.

**Reminder:** Special Town Meeting, Thursday, March 24, 2022, 7:30p.m. – Bryan Memorial Town Hall. In person only.
