

G/24/22

Respected Zoning Dept of Washington,

1. Residing on Property

This letter states that I, Ankur Ashok Patel, will be residing on the property of 16 Warren Road, Washington, CT.

2. Section 12.15 Regulations

The outdoor lighting for the property will be installed in a manner that will be complying with section 12.15 of the zoning regulations. The lighting will be installed above the stairs, which will be Dark-Sky Friendly, with light illumination in a downward direction to illuminate the stairs. Furthermore, to minimize the impact to the night time sky, neighbors, and keeping with the rural characters of the town, the light will be activated by motion sensor, so that light pollution will only occur during the utilization of the stairs. Lighting will also be installed on the wall of the building to illuminate the Deck. This too will be a Dark-sky friendly design, providing just enough light onto the deck to provide safety on the deck during nighttime, but not to be distracting to neighbors, and not to pollute the environment.

Thank you.

Sincerely,
Ankur Patel
