To whom it may concern,

It has come to my attention that Rika Keck is appearing before your board to explain her service on 43 Winston Drive in Washington Depot.

I am her closest neighbor, and frankly a friend. I feel compelled to write this: Rika's expertise in movement and disease is not comparable to anyone I've met. This is something our community should be happy to have here and happy to have as a professional resource for the betterment of our community.

I guess one question is if her service is a detrimental to the neighborhood.... quite the contrary. We are making new friends, as clients...few though they may be...travel here for her service. Nice to see new people in our neighborhood.

One more important thing. And a comment of character. As elderly members of the Washington Depot community, when we have needed help, we know we can call the Keck's. They are right here to help.

Thanks, Bob and Pat Corvello
42 Winston Drive
