To whom it may concern,

We live on 23 Winston Drive three houses up from Rika and Dan.

We have not been bothered or even noticed at any activity and inconvenience from her part - time personal training services.

We have heard that she is very good from her clients who have said it she helps them with their health and well-being, so we look at it as a service to the community.

We hope they will be able to manage through and not be stopped in the service, and are happy to provide more comments if of value.

Best,

Mark Dingle, and Jackie Hamilton.
