2.) Where will the events be held (Indoors? Outdoors?)

We have both indoor (6500 sq ft barn) and outdoor (Mark Mennin's stone amphitheater) where performances will take place.

3.) Lighting and/or amplified sound proposed?

We will have amplified sound until 10pm with minimal lighting for stage and access to and from the visitor seating

4.) Signs?

We will post yard signs in the major intersections of the community, as everyone promoting events does in Washington.

5.) Parking and traffic management

We have paid parking attendants to help move people throughout the property--we will not allow parking on the road.

As we have done in the past, we will enlist a local trooper to be stationed at the exit to ensure safety.

6.) Outdoor amplified sound?

The amphitheater is outdoors, therefore will have amplified sound not to exceed 10pm.

7.) Health Department approval

I've called the Health Department for an appointment which I hope to be in

the next week

We hope to promote community engagement through art and culture to promote a greater understanding of others. We would love to welcome all of you and your families to join us. Please also find images of last year to have a clearer idea of the space.

Sincerely,

Stephanie Ingrassia
