

## **CORONAVIRUS (COVID19) UPDATE 03/18**

Dear Washington Residents:

Today I am declaring a State of Civil Preparedness Emergency for the Town of Washington. The most important aspect of this declaration is that it allows the Town to have resources made available if needed from the State and Federal Government. The declaration will also allow us to track all expenses for possible future reimbursement from the State and Federal Government.

As a reminder I would ask that we all continue to be vigilant, practice social distancing and continue to reach out to our seniors with a phone call. Stay well.

Jim Brinton  
First Selectman
